

NEWS ALERT

New Info Sheet Presents Outstanding Biobased Alternative to WD-40®!

CORTEC CORPORATION
Environmentally Safe VpCI®/MCI® Technologies

USDA CERTIFIED BIODEGRADABLE PRODUCT

BETTER FOR THE ENVIRONMENT

- Contains 95% USDA certified biobased content
- Readily biodegradable
- Available in air-powered EcoAir® spray cans

BETTER FOR SAFETY

- Non-flammable, significantly higher flashpoint than competition
- Non-hazardous according to GHS classification

BETTER UNDER PRESSURE

- Outperforms load-carrying properties of competition in ASTM D-4058 (Falex Pin and Vee Block Methods)
- Outperforms anti-wear properties of competition in ASTM D-4172 (Four-Ball Method)

ECOLINE® ELP STANDS UP TO THE COMPETITION

**Better Under Pressure . . .
... for You and the Environment.**

Do you ever wonder if a biobased, biodegradable all-purpose lubricant and penetrant can compete with popular name-brands like WD-40®, LPS 2®, or CRC 3-36®?

Testing shows that EcoLine® ELP can!

EcoLine® ELP outperforms all three name brands in extreme pressure and anti-wear properties, with comparable corrosion protection and bolt-loosening power—all while boasting a better safety and environmental profile!

Replace your flammable, combustible petroleum-based products with a sustainable alternative!

LPS 2® is a registered trademark of Illinois Tool Works. WD-40® is a registered trademark of WD-40 Company. CRC® and 3-36® are registered trademarks of CRC Industries, Inc.

Would you be skeptical about a biobased alternative to popular name-brands like WD-40®, LPS 2®, or CRC 3-36®? If you feel that you or your customers need some more information before “going green” in this area, our new EcoLine® ELP info sheet gives you the basics needed to show how EcoLine® ELP stands up to the petroleum-based competition.

The front of the sheet outlines three key advantages of EcoLine® ELP:

- It is better for the environment
- It is better for safety
- It is better under pressure!

Test data on the back page allows you to compare and contrast the four products and see that EcoLine® ELP outperforms all three name brands for extreme pressure and anti-wear properties. EcoLine® ELP also has comparable corrosion protection and bolt-loosening power, while far outpacing the three name brands by a significantly higher flashpoint.

This resource is perfect for sharing with maintenance personal who need to use basic lubricants/penetrants but might be interested in keeping a safer, more environmentally responsible product around the shop.
