PRESS RELEASE

New Biobased Corrosion Inhibiting Lubricant Utilizing Green Technology

The Safest Protection of Food Processing Equipment!

EcoLine® Food Machinery Lubricating Grease is a certified biobased, high-quality, corrosion inhibiting lubricant formulated with renewable American-grown natural seed oil. This environmentally friendly lubricating and rust preventative grease, is specifically formulated to meet and exceed the demands of major food and meat processing plants.

EcoLine® Food Machinery Lubricating Grease is part of environmentally safe BioCortec® range of corrosion control products developed as a green response to hazardous oil derived corrosion preventatives. BioCortec® line offers eco-efficient and biodegradable solutions made from sustainable materials, therefore is a perfect choice for applications that involve food contact.

EcoLine® Food Machinery Lubricating Grease provides excellent corrosion protection for ferrous and colored metals while its biodegradable formula reduces damage to the environment. The product conforms to USDA H-2 criteria and USFDA regulations 21CFR.

EcoLine® Food Machinery Lubricating Grease is manufactured from renewable American-grown crop based oils.

The combination of FDA approved corrosion inhibitors and the specially formulated aluminum based thickener, enables superior protection and lubricity to most conventional greases. In addition to lubricating, self-healing, and high flash point properties, this biodegradable lubricating grease provides a powerful combination of contact and vapor phase corrosion protection. EcoLine® Food Machinery Lubricating Grease reduces friction and wear and has high flash point for increased safety. It enables superior lubricity to promote longer equipment life. The product meets EPA's EPP criteria as well as most manufacturer's specifications and is recommended for both operating and mothballed equipment.

EcoLine® Food Machinery Lubricating Grease contains 92% of biobased content, it is USDA BioPreferred designated Food Grade Grease for Federal preferred purchasing. EcoLine® Food Machinery Lubricating Grease can be applied by brush, roll, or using standard grease guns.

METALS PROTECTED

- Carbon Steel
- Stainless Steel
- Cast iron
- Aluminum and alloys
- Copper and alloys

EcoLine® Food Machinery Lubricating Grease conforms to NACE RP 0487-2000, NACE TM0208-2008, ASTM D6400, D217, D2296, D2596, ASTM B 117, DIN EN 13432, DIN V 54 900 standards and is RoHS compliant.
