Cortec® Middle East Announces Establishment of Cortec® Egypt

CORTEC®
MIDDLE EAST

Environmentally Safe VpCI®/MCI® Technologies

Cortec® Middle East (CME) is happy to announce the establishment of Cortec® Egypt, an important milestone in the expansion of CME's presence in Egypt and North Africa.

Egypt is a strategic market in the region with a population of over 100 million people and widespread major activities in the construction, manufacturing, and oil and gas sectors.

For many years, CME has been supplying major clients in Egypt with high performance preservation solutions, including most recently the successful completion of the preservation of piping and equipment internals at an important oil and gas industry project in the region.

With a growing team of highly qualified and trained resident engineers in Egypt, the establishment of the Cortec® Egypt office is a further accomplishment in realizing CME's goal of providing localized corrosion solutions and support for the expanding client base in the region.

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001 and ISO 14001 Certified, and ISO 17025 Accredited.
