## Cortec® And Corpac Attend The 2015 Fachpack - Leading The Industry In Corrosion Protection!

### FachPack 2015

Cortec® recently attended the 2015 Fachpack Packaging Show in Nuremberg, Germany. Fachpack is Europe's largest packaging show and this year more than 44,000 visitors attended. Markus Bieber, who is responsible for the German speaking countries attended the show on behalf of Cortec® to support our partner, Corpac, who invested more than \$45,000 to have a booth at this show. Dressed in matching shirts, pants, and shoes, visitors commented on the team approach and presentation which was well received.

All of Corpac's regional partners visited the booth and there were many existing customers and potential new customers which stopped by to discuss their corrosion needs and challenges.

All major competitors were present, however Corpac/Cortec® remained the clear frontrunner with the most diverse product offering available.

To find out other shows Cortec® will be present at, visit here:
