

NEWS ALERT

Join Us to Learn About Using MCI® in Extraordinary Concrete Repairs!

FIRE  **IMPACT**  **BLAST**
REPAIRS AFTER EXTRAORDINARY EVENTS

2022 ICRI Fall Convention | Atlanta, GA | November 7-9

Calling all concrete contractors, engineers, and MCI® representatives! We invite you to meet us next month in Atlanta, Georgia, for the 2022 ICRI (International Concrete Repair Institute) Fall Convention. Jessi Meyer (VP of Technical & Product Sales), Ash Hasania (MCI® Technical Sales & Market Manager), and Kevin Quan (MCI® Regional Sales Manager, East Coast) will all be on hand from our MCI® Team to answer MCI® concrete repair questions, reconnect, and simply enjoy time together at our tabletop booth and ICRI social events.

The theme for this convention is "Fire, Impact, Blast: Repairs After Extraordinary Events." In addition to the insights we'd be happy to share with you from our own experiences in concrete repair, a full schedule of technical sessions is planned, including opportunities not only to learn from industry experts but also to earn PDH credits in the process. You can also get more involved by attending ICRI committee meetings and observing the process to see if you would like to have a more direct role in the future. Best of all, the ICRI Fall Convention is a great way to expand your network and make invaluable new friendships in the concrete repair industry that will be mutually beneficial for years to come.

Mark your calendars and register today!

2022 ICRI FALL CONVENTION
