

NEWS ALERT

Meet Us in Amsterdam for 'Green' Cleaning Solutions!

In just a few weeks, our Bionetix® International team will be making its way from different parts of the world to Amsterdam for the ISSA INTERCLEAN convention. Known as "The World's Leading Tradeshow for Cleaning and Hygiene Professionals," this gathering is a great place to renew old relationships with Bionetix®/Cortec® representatives and also make new connections in the cleaning industry.

In a day when society is looking for "greener" cleaning options, Bionetix® biotechnology is especially relevant as an alternative to harsher chemicals. Our bio-enzymatic cleaners change the way you can attack a cleaning job, by adding the power of bioaugmentation into the formula. Whether you are a cleaning product distributor or formulator, INTERCLEAN is a great opportunity to learn more about how these cleaners harness natural processes by introducing good bacteria and free bio-enzymes to digest unwanted grease and grime and boost cleaning power.

Our team of experts will include our inhouse chemist from Bionetix® International headquarters in Canada. We will also have representatives from the US, Croatia, and Italy. This is a rare opportunity to have this diverse team together in one spot. Come with your bio-enzyme cleaning, formulating, and distribution questions and prepare to get business done with a group of specialists who are normally not in one place all at the same time!

ISSA INTERCLEAN 2022
