

NEWS ALERT

It's Time to 'Get WWETT' Again with Bionetix® International!

Bionetix® is excited to dive back into the big wastewater and sanitation event of the year known as WWETT in Indianapolis!

Anyone who works in sanitation management service or distribution and wants to cut down on the use of harsh chemicals should stop by Booth #3610 during the February 18th-20th expo in Indianapolis to learn how probiotic treatment alternatives are transforming the industry. Probiotic sanitation experts Diana Di Marco (Technical Sales Director) and Juan Acosta Morena (Manufacturers' Rep) will be at our booth, ready to answer your questions about "greener" solutions for sanitation.

WWETT attendees will be able to view our expanded range of biological products that use beneficial microorganisms and/or enzymes to digest and degrade organic wastes in septic tanks, portable toilets, trailers, and urinals. Come see our new BIO-BOOM™ TAB, ask us how PAPERATOR™ enzymes can help cut down on toilet paper clogs, and explore options for boosting the microflora of septic tanks!

In addition to bringing you face to face with Bionetix® experts, WWETT25 will be a great opportunity for you to connect with thousands of sanitation specialists from around the world and enjoy a wealth of continuing education opportunities and demos. Whatever your sanitation specialty, we invite you to sign up today and come "get WWETT" with us at WWETT25 in Indianapolis!

WWETT25

February 18th-20th, 2025
Indiana Convention Center
Indianapolis, IN
Booth #3610
