

NEWS ALERT

Cortec® VpCI®-637 TOL Featured in July Issue of Pollution Engineering Magazine!

Pipe Inhibitors for Corrosion Protection

VpCI 637 TOL provides internal corrosion protection for gas flow and gas transmission lines. The product is effective against water, corrosive gasses and chloride contamination. It is a combination of vapor phase, neutralizing and film-forming corrosion inhibitors to combat the broadest range of corrosive attack from

moisture and condensation, oxygen, carbon dioxide, hydrogen sulfide and other corrosive contaminants in natural gas. It conforms to MIL-I-22110C VIA Test (Vapor Inhibiting Ability), NACE RP 0487-2000, TM0208-2008, NACE test method ID 182, ASTM G-170-01 and is ROHS Compliant.
