

NEWS ALERT

Kian Yeap Gan Joins Cortec® Southeast Asia to Strengthen Regional Ties

[Cortec® Southeast Asia](#) (CSEA) started the new year strong by welcoming Kian Yeap Gan (“KY”) as its Regional Sales Manager. KY will be building on the outstanding work of Jay Zhang (Business Development) to cultivate strong relationships in this culturally rich and industrially diverse region. In addition to providing sales and technical support, KY aims to improve the organization of CSEA’s current distribution channels and expand the number of industries served in the region.

KY’s educational and work background fit him exceptionally well for this task. A bachelor’s degree in material and manufacturing engineering gives him the skills needed to support CSEA customers technically, while an MBA prepares him to balance the many facets of daily business operations.

Additionally, multiple years of practical experience in a wide variety of manufacturing industries—from foundries and coatings to die casting, electronics, and aviation—equip KY with keen insight into what his customers are facing and how Cortec® corrosion solutions fit into the picture.

We look forward to strengthening ties with many of you throughout Southeast Asia thanks to this new addition to our team. If you haven’t been able to meet KY yet, don’t hesitate to reach out to him today!

KY Gan (Regional Sales Manager, CSEA)
