Cortec® Distributor Lake Chemicals Celebrates 15th Anniversary

Lake

Cortec® distributor Lake Chemicals and Minerals Ltd. celebrated its 15 year anniversary as a specialty chemicals distributor with a themed celebration on the extensive grounds of Warwick Castle, UK, June 28th, 2018. The celebration featured knights in medieval costume, evening entertainment, and a three course meal in the Great Hall of a historic castle dating back to the time of William the Conqueror (11th century A.D.). Lake invited key supplier partners, customers, and directors from the LEL Group to join the event, which proved to be an excellent opportunity to celebrate achievements and partnerships and look forward to an even better future together.

During an awards ceremony for outstanding employees, Boris Miksic, President of Cortec® Corporation, presented the “Innovative Employee Award” to Ewelina Stelmach, who processes all Cortec® sales and purchase orders and manages Cortec® stock for Lake Chemicals. Ewelina was voted by her peers to receive the award because she not only challenges current processes, but proposes innovative solutions and then works as part of a team to implement them. This has resulted in significant efficiency improvements across the department.

Cortec® is proud of distributors like Lake and its employees who team up with Cortec® to deliver innovative corrosion solutions around the globe. Special congratulations to Lake Chemical and Minerals for 15 years in the business!

Boris Miksic (President, Cortec® Corporation), Ewelina Stelmach (Business Services Coordinator, Lake Corrosion Engineering), Philip Collier (Division Manager, Lake Corrosion Engineering)
