

NEWS ALERT

Cortec® Continues Longstanding Tradition of LatinCorr Participation

LATINCORR
23-25 October
Buenos Aires, Argentina **2018**

Cortec® Corporation teamed up with Argentinian distributor Luboks to participate in the eleventh LatinCorr, held October 23rd-25th in Buenos Aires, Argentina. Two hundred sixty-four people attended from around the world, representing 19 countries total: Argentina, Belgium, Bolivia, Brazil, Canada, Chile, Colombia, Ecuador, Great Britain, Italy, Japan, Kuwait, Mexico, Nigeria, Paraguay, Peru, South Africa, Uruguay, and the USA. Of all those present, Cortec® appeared to be the only company exhibiting Vapor phase Corrosion Inhibitor Technology for corrosion prevention and mitigation.

Dario Dell'Orto, Cortec® VP of International Sales, contributed to the technical program by sharing a presentation on "Temporary Coating for In Process or Storage Applications." Cortec® and Luboks also represented VpCI® Technology at Cortec's booth and were joined for a day by Energia Integral Andina (Colombia) and Corr Solutions (Brazil), Cortec® distributors who graciously helped international visitors and shared insights from their own best practices.

Cortec® Corporation has consistently attended LatinCorr since the 2010 convention in Quito, Ecuador, and has become a familiar name at the conference. In fact, Cortec's brand and image are quite well known in the corrosion protection sector both in terms of product development and significant applications throughout the entire world.

As usual, LatinCorr 2018 proved to be another excellent opportunity to develop a valuable network of contacts and spread the word on how to replace old-school technology systems with updated methods of combatting corrosion.

The next LatinCorr conference will be held in Quito, Ecuador. See you there!

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001 and ISO 14001 Certified, and ISO 17025 Accredited.
