

INVITATION GRAND OPENING

Dear Guests,

it is our great honor and pleasure to invite you to Grand Opening Ceremony of our new plant located at EcoCortec complex. The opening will take place on **October 11, 2022 at 12:00 p.m.**

After 17 years of successful business and continuous growth, EcoCortec® is expanding again. Two production facilities will be located near the existing plant: polymer processing facility and reggranulation facility, where our waste material will be recycled. In addition to increasing the plant's capacity, this acquisition will result in better utilization of potentially useful materials. Consumption of fresh raw materials and energy will significantly be reduced. With this project, EcoCortec® will incorporate all the principles of a circular economy that reduce air and water pollution and continue to strongly promote green technologies. In addition of in-process scrap recycling, the plant will reprocess post-consumer plastic packaging from Osijek-Baranja region.

We are proud that our plant, EcoCortec®, from its humble beginnings is on a strong path to become the most modern plant for the production of green anticorrosion films in Europe! Our products are already used worldwide by the largest manufacturers in the automotive industry, as well as other multinational companies.

After a tour of the entire EcoCortec complex, our CEO, Boris Mikšić, invites you to an all-day celebration that will take place at several locations: a formal reception at the Vinohaus winery will be held after the plant tour. At 5:30 p.m. a reception will be organized at VinoHill. At 8:00 p.m., we invite you to a main celebration and dinner that will be held in "Baranjski Divani" in Hotel Patria. Together we will enjoy Baranja's culinary specialties, music and fireworks. Most importantly, this will be a wonderful opportunity to spend some time together and exchange our experiences, projects, and future plans.

We would be honored to have your presence and sincerely hope that you will join us for this important event and share with us this special day.

Boris Mikšić, CEO and Owner of EcoCortec
