

NEWS ALERT

Meet Luke Stone – Our Newest Technical Service Engineer!

We are pleased to introduce the newest addition to our product technical support staff! Luke Stone joined the Cortec® Technical Service team in November, bringing with him a technical background and an eagerness to help people.

Luke received a B.Sc. in Science Education from UW-Stout with majors in Education and Chemistry and a minor in Environmental Science. He has worked in the fields of education, transportation, and construction. Now turning his focus to the corrosion control sector, Luke says, “I’m most interested in helping to create a more sustainable future. Less corrosion means less need for replacement and repair, benefiting both our clients and the environment they live in.”

Luke is determined to learn as much as he can to become a strong communication link and use creativity and level-headed problem-solving to help Cortec® clients arrive at the best solution for their needs. His focus areas will be Cortec® Water Treatment, Coatings, and MCI®. Join us in welcoming him to the team!
