**PRESS RELEASE**

**Cortec's MCI® 2020 V/O used on  
the 2009 ICRI Project of the Year!**

The International Concrete Repair Institute (ICRI) has awarded Concrete Protection & Restoration, Inc. the 2009 ICRI Project of the Year award for their work on renovations at the Pentagon.

Cortec's MCI® 2020 V/O was specified as a component of the renovations done on the exterior walls of the Pentagon. MCI® 2020 V/O was chosen for its ability to provide corrosion protection to embedded reinforcement in carbonated concrete structures and its single coat application; which saved time and money during the application process. Also, MCI® 2020 V/O did not create any environmental issues or cause harm to other structural components (such as windows) of the Pentagon.

Cortec® would like to extend their congratulations to Concrete Protection & Restoration, Inc. for their accomplishments in winning this award!
