**PRESS RELEASE**

## **Cortec® And NACE Team Up To Present Hardbound Copies Of “The Preservation, Lay-Up, and Mothballing Handbook”!**

Publisher, Cortec® Corporation, and author, Boris Miksic FNACE, in collaboration with NACE International announce “The Preservation, Lay-up, and Mothballing Handbook” will soon to be available for sale. This 8 ½ by 11, 979 page hardbound book with accompanying CD will be offered starting at CORROSION 2014 in San Antonio, TX March 9-14. It will be available in their bookstore at the conference and in their electronic bookstore on the NACE website. Look for Item #38593 for \$250.00 List/NACE Member. Working together offers exciting new opportunities to connect and transact more effectively to reach new audiences.

Comprehensive and systematic in methodology, this unique handbook documents step-by-step procedures and processes for preservation, lay-up, and mothballing of equipment, systems, and industrial facilities. Assembled in one volume and organized by class of equipment for ease-of-use as an onsite reference by engineers, project managers, plant managers, and maintenance crews, this protection information is the first of its kind in the world. Easily find the exact best practice methods to preserve equipment at any stage of its useful life. From OEM-new to operational spares, in-use, seasonable lay-up to permanent mothball, the handbook will assist in the identification of world-class preservation methods. Cortec employs the latest technology for their environmentally preferable, economical, and sustainable high performance corrosion prevention solutions.
