

NEWS ALERT

Cortec's VpCI®-143 Emitters Featured In July Issue of New Equipment Digest!

Corrosion Control Papers vapor layer reaches all metal surfaces

These Paper Emitters have a vapor action that forms a thin protective layer to reach all ferrous

and non-ferrous metal surfaces, providing complete corrosion protection. The inhibiting coating does not alter the appearance of products or require removal before further finishing or use. The VpCI-143 papers are non-toxic, biodegradable, and fully recyclable.
