Cortec Spray Technology Division Wins “Excellent” Supplier Rating!

The Cortec Spray Technologies Division (CSTD) has yet again been awarded with an “Excellent” supplier rating! What is unique about this particular award is that this supplier is the largest producer of air cooled gasoline engines. Cortec Spray Technologies developed the packaging and now packages the “Pressure Washer Pump Saver.” This product is used to prevent harmful buildup of hard water mineral deposits in pressure washer pumps.

After having filled only several orders, CSTD was evaluated per the ISO 9000 certified Quality Management System in place at the engine manufacturer. Cortec Spray Technology Division’s performance was classified as excellent, demonstrating that customers can be assured of the best quality service and effort when working with Cortec, the world leader in VpCI™/ MCI® technology.
