

NEWS ALERT

Adding Strength to the Numbers Side of Rust Prevention: Nick Larson Joins Cortec®

Cortec® is pleased to introduce Nick Larson as the newest addition to its accounting department. Nick will drive efficiency and excellence in Cortec® financial operations as he supports the financial team in reporting, compliance, payroll, and tax processes.

Before coming to Cortec®, Nick earned a bachelor's degree in accounting and became an expert in payroll, tax compliance, and financial operations through invaluable experience at 3M and Avalara. His ability to juggle complex accounting tasks while ensuring compliance has equipped him with the skills needed to help take Cortec® to the next level of accounting excellence. "My goal is to use my expertise to streamline financial operations and ensure accurate reporting, helping the company deliver exceptional value to both its customers and stakeholders," Nick explained.

Since starting his role at the end of March, Nick has found it interesting to learn about the endless need for rust prevention in real life. While not directly involved with corrosion fighting technology, his skills will be an integral part of helping Cortec® deliver those real-world corrosion solutions to users in all parts of the globe. Please join us in welcoming Nick to the Cortec® family!
