What is one place you're sure to find corrosion? The offshore environment, surrounded by an untamed ocean of saltwater, is a good answer! That is why Cortec® plans to be at the 2023 Offshore Technology Conference (OTC), May 1<sup>st</sup>-4<sup>th</sup> in Houston, and encourages you to be there, too!

Celebrating more than 50 years since its start in 1969, OTC has become the world's foremost conference for offshore resource development. Drawing an expected 24,000+ E&P (exploration and production) professionals from almost 100 countries around the world, OTC is the place to connect with energy industry experts and decision makers who need corrosion solutions.

Cortec's team will also be on hand at Booth #2603 to talk one-on-one with you about your oil and gas, offshore, and general energy industry corrosion questions. This year, our team will include regional reps from the southern United States, along with our Technical Sales and Product Manager, traveling from Cortec® headquarters with a wealth of firsthand knowledge and experience in oil and gas preservation.

In addition to thousands of networking opportunities, OTC 2023 is a great place to "[gain a year's worth of training and knowledge in one week](#)" from a slate of 45 technical sessions and 300+ technical presentations! This kind of knowledge will help you better understand your audience and target industry—whether that includes the traditional oil and gas market or the growing field of offshore wind energy.

Whatever segment of the offshore industry you find yourself in, corrosion is sure to be an ongoing threat. Cortec® is here to help, and so are you! If you have been involved in corrosion protection for the offshore industry for decades or are just getting started, OTC 2023 is a great place to take your next step. Make the investment now to expand your impact in the offshore industry for years to come. Register today and let us know you're coming so we can connect!
