NEWS ALERT

Cortec's "VpCI® Technology for Oil and Gas Industry" Brochure Featured in August Issue of New Equipment Digest

Cortec's new "VpCI[®] Technology for Oil and Gas Industry" Brochure is featured in the August 2015 issue of New Equipment Digest. As the leading monthly source of information on innovative products for general industry, the New Equipment Digest serves more than 200,000 plant operations, maintenance, engineering, production, purchasing, and administrative personnel in more than 100,000 facilities throughout the United States.

The "VpCI[®] Technology for Oil and Gas Industry" Brochure delivers information on Cortec's patented VpCI[®] technology and details what Cortec[®] products and services have to offer our customers and clients in the oil and gas industry. Cortec's diverse set of services and products can be utilized in upstream, midstream, and downstream businesses. The brochure also explains the value of Cortec[®] Global Services and Cortec[®] Field Services in the diverse and challenging environments of the oil and gas industry. A buyer's guide that expands upon the industry leading products' descriptions, applications, and dosages is included on the final pages of the brochure.

In a rapidly growing market, Cortec[®] continues to lead the oil and gas industry with its innovative products. Many of these unique products conform to ASTM G 1, ATMS G3 Standard Test Methods, NACE Standard TM-01-64 for Laboratory Corrosion Testing of Metal for the Process Industries, and NACE Standard TM 0169-95 for Laboratory Corrosion Testing of Metals.
