

NEWS ALERT

Cortec® is moving onward and upward... and so are our people!

February 23, 2007

Bill Harrod

At Cortec®, we are always positioning ourselves strategically for growth and productivity. With that, we have a few changes to announce!

Bill Harrod, our Regional Sales Manager handling the Great Lakes region as well as the western part of the Upper Midwest will now work under the Midwest Office umbrella. With all the interaction between both areas, it makes great sense for us to join them.

Cliff Cracauer

We are also pleased to announce that Cliff Cracauer will now be Vice President of Sales for Integrated Solutions. We have great expectations and feel sure that Cliff will exceed the challenges of the additional responsibilities that he will have.

Dario Dell'Orto

Dario Dell'Orto has been our European Sales Manager for the last 8 years. We are going to challenge Dario again by having him also manage sales in South America. As the Vice President of Sales in Europe and South America, he will have a greater responsibility in his new role. Dario lived in Chile for many years and has extensive experience and understanding of Latin America's history and culture. Dario's fluency in the Spanish language will help increase communication with our customers in South America.

As always, we all look forward to a great future with many rewards and successes. Wishing everyone a great 2007!
