

NEWS ALERT

Cortec® Named A Major Player In The Global Water Treatment Chemicals Market!

The June 2016 study by P&S Market Research on “Global Water Treatment Chemicals Market Size, Share, Development, Growth and Demand Forecast to 2022 – Industry Insights by Type,” reports that demand for water and water treatment is escalating. This is due to the rapid increase in urbanization and industrial growth in developing countries around the world.

The study states that the 2015 global market for water treatment chemicals was valued at \$16,853.5 million. This is projected to rise at a CAGR (compound annual growth rate) of 5.6% until 2022. This increase will come from growth demands in the following industries:

- Power generation
- Municipal water treatment
- Chemical processing
- Pulp and paper
- Food and beverages
- Metal and mining
- Oil and gas
- Construction
- Petroleum refining
- Others

P&S Market Research calls Cortec® Corporation one of the “major players operating in the global water treatment chemicals market.” This market includes

- Coagulants and flocculants
- Corrosion inhibitors
- Scale inhibitors
- Chelating agents
- Biocides and disinfectants
- pH adjusters and stabilizers
- Anti-foaming agents
- Oxidants
- Oxygen scavengers
- Other water treatments

Cortec’s own portfolio of water treatment chemicals consists of patented Vapor phase Corrosion Inhibitors (VpCIs) and other water treatment chemicals such as defoamer, oxygen scavenger, scale inhibitor, and replacement treatment for dangerous hydrazine. Cortec’s water treatment solutions are typically safer, easier to use, and more effective than traditional water treatment chemicals.
