To: Whom It May Concern

Re: REACH Update

The registration obligations of our substances will take place, based upon the quantities produced, by 2018. Cortec Corporation can reliably make use of the appropriate transition periods, as it has followed all necessary steps for pre-registration. This will allow for the uninterrupted supply of our products within Europe. Cortec finished goods will not have individual registration numbers.

The Safety Data Sheets for our products are in full compliance with the regulation.

We will continue to work with our only representative as we move toward full registration of our corrosion protection products.

Sincerely,

Andrea Hansen

Andrea Hansen
REACH Coordinator
