PRESS RELEASE

New Improvements in Croatian Bioplastics and Anticorrosion Packaging Plant:

EcoCortec® Offers Rapid-Response Shipping!

Croatian bioplastics and anticorrosion packaging plant is pleased to offer rapid response, same-day shipping for most of its standard VpCI® products. EcoCortec's clients can now place an order for any of the standard products from the plant's rich assortment of environmentally safe VpCI® solutions providing premium corrosion protection. EcoCortec's customers simply need to submit their orders before noon

and request same-day shipping on any of standard EcoCortec's stock items. Our clients are EcoCortec's priority and the plants' team is working constantly on improving our shipping services. Croatian plant offers a wide range of environmentally safe films and bags as well as other corrosion protection solutions such as coatings and additives that provide patented VpCl corrosion protection. EcoCortec® plant continues to grow and export its products to EU, Asia and USA. Rapid-Response Shipping is our latest step taken to ensure our clients enjoy premium customer experience and have their products delivered immediately to protect their valuable assets from corrosion.

Located in Croatia's Baranja region on a 10,000 square meter site the plant offers complete converting, extruding, and printing capabilities. EcoCortec® is working together with the goal of spreading environmentally responsible corrosion protection technologies in Europe and abroad. EcoCortec® films and production processes conform to high quality standards and include a first of its kind recycling programme in Europe.

The plant has pioneered two technologies of biodegradable and compostable films: Eco Film® and Eco Works®. They offer certified biodegradable alternatives (DIN CERTCO industrial compostability) to polyethylene films and bags while still offering excellent performance characteristics. Our continuous research and innovation approach combined with ecological awareness are among the reasons why we are a leader in the corrosion protection industry. Thanks to EcoCortec's excellent shipping record and ongoing improvement, the company is happy to be able to provide customers with rapid response shipping of stock corrosion solutions for packaging, oil and gas, water treatment, renewables and numerous other industries.
