- Angus Chemical Company
- ArtecoN.V.
- Australian Organic Coolants
- BengKuang Marine Limited
- ChemTreat Inc.
- CIMCOOL Fluid Technology, LLC
- CRC Industries Inc.
- Ecolab Inc.

VpCI® Advantage to Your Formulations

VpCI® technology is a revolutionary, environmentally safe, and cost-effective option for corrosion protection. Cortec® products protect with a thin, monomolecular protective film. The barrier re-heals and self-replenishes; and can combine with other functional properties for added protective capabilities.

With Cortec® water chemistry, you can replace:

• Nitrites	• Molybdates	• Phosphates
• Phosphonates	• Morpholine	• Borates
• Hydrazine	• Amines	• Azoles
• Imidazoline		

Cortec's patented VpCI® inhibitors have been recognized as a leading technology for corrosion protection among biggest world manufacturers in this industry.

Cortec's team is thrilled by this report which is the result of decades of hard work , expertise and innovative approach. We are looking forward to making even more contributions in years to come. Cortec® Corporation team is working constantly on improving our services and we believe this work is never finished. Strong company vision which embraces high responsibility towards our customers and the community as well as dedication to environmental safety is what has made Cortec® a world leader in corrosion protection field.

Team of highest professionals from different fields sharing the same values is working together to create the smartest and latest high - technology products and services in the corrosion protection industry. In the year of 2017 when Cortec® is celebrating its 40th anniversary, this is the best present we could receive and acknowledgment that all our hard work pays off.
