

NEWS ALERT

Join Us at the 'Go-to' Event for Facility Managers!

NFMT[®]2023

We are pleased to announce that [Cortec[®]](#) will be heading to Baltimore, Maryland, March 21st-23rd to showcase water treatment solutions at the NFMT (National Facilities Management & Technology) convention! This is a great opportunity to reach a market in need of the very answers we can offer to keep their plant utilities running smoothly and their assets lasting longer.

Even though this is our first time at NFMT, we look forward to connecting with many of our distributors and end users who are already planning to attend NFMT. We also look forward to meeting many facility decision makers and making their lives easier with practical solutions for [boiler](#) and [cooling system](#) layup.

If you are looking to justify your own trip to NFMT, be sure to remember that NFMT is the self-described "go-to" event for facilities managers" and caters only to qualified buyers and specifiers. As such, the NFMT audience represents a large segment of the Cortec[®] water treatment market. While there, you can plan to

- Connect face to face with Cortec[®] representatives
- Grow your network with facility management professionals
- Understand your customers better by hearing facility manager concerns directly
- Build your knowledge of facility management by attending conference sessions

We expect to have a dynamic time at NFMT and hope you can join us to build momentum for your own professional life! Mark your calendars, register today, and let us know you're coming!

NFMT 2023
March 21st-23rd, 2023
Baltimore Convention Center
Baltimore, MD
Booth # 1360
