

NEWS ALERT

Energía Integral Andina S.A. Hosts First Webinar!

¿ARRANQUE DESPUÉS DE LA CUARENTENA?

WEBINAR GRATUITO | VIERNES 8 MAYO 9:00 AM (GMT-5) HORA COLOMBIA

PONENTES

GABRIELA SALOMÉ SAYAS
ING. INDUSTRIAL Y COMERCIAL
ESTUDIOS EN CORROSIÓN DE MATERIALES.

JAIR ROZO ZAMBRANO
ING. ELECTRICISTA
MÁS DE 20 AÑOS DE EXPERIENCIA EN GRANDES PROYECTOS DE INFRAESTRUCTURA.

CÓMO AFRONTARLO CON NUEVAS TECNOLOGÍAS CONTRA LA CORROSIÓN.

INSCRIBASE AHORA EN EL LINK DE LA DESCRIPCIÓN CUPOS LIMITADOS

On May 8th, Energía Integral Andina (EIA), Cortec's distributor in Colombia, Panama, and Peru, collaborated with Cortec® to host a successful webinar entitled, "Restarting After Quarantine? How to Face It With New Technologies Against Corrosion."

More than 100 people from eight Latin American countries registered to participate in the webinar. The objective was to raise awareness among maintenance and operations managers—as well as plant and production coordinators—about the risks they could face in the reboot of their activities in various industries. A special challenge will be the impact of storage in uncontrolled environments combined with the untimely halt of activities, which could create a breeding ground for corrosion. The webinar addressed crucial sectors such as the aeronautical industry, mining, energy, and air conditioning, among others.

Engineers Jair Rozo and Gabriela Salomé led the presentation, making it clear that, "The best defense is not to attack, but to prevent." This is a great lesson that has been reaffirmed in the current situation and was placed into the context of corrosion for this webinar.

The webinar presented VpCI® Technology, highlighting its environmentally responsible characteristics and basic chemistry action. Correctly applied to inhibit corrosion, this technology presents an effective and economical solution to help prevent possible equipment failures and reduce the need to replace spare parts, machinery, and/or tools. By preventing these problems before they start, VpCI® Technology is able to help save costs and optimize the corporate budget.

Dario Dell'Orto and Martha Liliana Castiblanco hosted the round of questions and answers. This part of the presentation saw very active participation from attendees, who were able to get guidance on questions regarding Cortec® Technology, products, and applications.

We want to give special thanks for the interest displayed by attendees and the Energía/Cortec® presenters who made this webinar possible. We hope that more educational and collaborative initiatives of this kind can be created soon to discuss the different solutions and innovations Energía Integral Andina S.A. is able to provide in its various units of business.

In the meantime, we invite you to watch the recording of this webinar at the link below! <https://meeting.zoho.com/public/vidoeprv?recordIngId=bbda10da6854710a2b747761b765666b8ae262a2790d00ab7c7643a428f588c3&src=mail>

WEBINAR GRATUITO

¿ARRANQUE DESPUÉS DE LA CUARENTENA? **CÓMO AFRONTARLO CON NUEVAS TECNOLOGÍAS CONTRA LA CORROSIÓN.**

1 LA PROBLEMÁTICA | 2 LOS RIESGOS | 3 LAS SOLUCIONES

• QUÉ ES LA TECNOLOGÍA VPCI
• POR QUÉ USARLA
• CÓMO APLICARLA

PONENTES

JAIR ROZO ZAMBRANO
ING. ELECTRICISTA
Estudios en Gestión, Control de Mantenimiento, Dirección de Proyectos y Gestión de Energía.
Más de 20 años de experiencia en grandes proyectos de infraestructura y más de 19 años en el sector de energía para las telecomunicaciones.

GABRIELA SALOMÉ SAYAS
ING. INDUSTRIAL Y COMERCIAL
Estudios de Economía, Marketing Industrial, Gestión de Cuentas KA&M y Gestión Comercial y Ventas.
más de 4 años de experiencia comercial orientado al sector industrial como minería, petróleo, gas y energía.
Especializada en métodos de protección contra la corrosión con tecnologías de inhibidores de corrosión.

INVITADOS

MARTHA LILIANA CASTIBLANCO
EJECUTIVA DE CUENTA CORTEC® COLOMBIA
Estudios y experiencia en Soluciones para la inhibición de la corrosión.
Experiencia en el área comercial de más de 10 años.

DARIO DELL'ORTO
VICE PRESIDENTE, VENTAS INTERNACIONALES CORTEC® CORPORATION.
Licenciado en Química Industrial y profesional de Química Pura.
Más de 21 años de experiencia en Cortec® Corporation.
