**PRESS RELEASE**

**CorteCros® Announces New Brochure:**

## High-Tech Integrated Solutions for Corrosion Protection!

CorteCros®, part of Cortec® Corporation's European group, has released a new updated brochure covering a broad range of services. The company provides integrated solutions and full technical support for Cortec's products and services in southeastern Europe. CorteCros® offers product selection, application, and consulting services for corrosion prevention and collection of spilled oil derivatives and chemicals. Integrated corrosion protection services enable clients significant cost savings with environmentally responsible materials protection technology. The brochure highlights the company's full range of products and services while covering its brand-new production facility and laboratory that play an integral role in manufacturing

Cortec's corrosion control products. Cortec's proprietary VpCl®/MCI® products are manufactured in CorteCros's new manufacturing facility in Split in accordance with REACH regulation, which enables them to be shipped everywhere inside the European Union in record time. CorteCros's new facility and lab are equipped with modern instruments and perform testing compliant to EU and ASTM
