## **EcoCortec® and Cortec® at EuroCorr 2015 – Europe's most Important European Corrosion Congress!**

EcoCortec® and Cortec® will be at the biggest scientific centre in the southeast of the

European Union in Graz, Austria on Eurocorr 2015, from 6<sup>th</sup> to 10<sup>th</sup> September 2015. This renowned conference will continue a successful series of corrosion science conferences with main objective to foster knowledge transfer and exchange of experiences amongst delegates with academic and industrial backgrounds.

It is an honor for us to have a privilege to invite you to visit our booth for the Eurocorr 2015 and chat with the EcoCortec® and Cortec® team.

It is also a perfect opportunity to attend technical session where Prof. Bavarian will present 3 technical papers. On Monday 9/7 at 11:40 am (Dry Air and VCI presentation) on Thursday 9/10 at 10:40 am (CUI talk). Professor Bavarian from California State University is one of the world's leading authorities on VpCI®/MCI® with over 20 years experience.

# NEWS ALERT

His presentations will improve and deepen our knowledge on VpCI® technology and products as well as wide range of possible applications.

## Prof. Bezađ Bavarian topics

Monday 07.09.2015

### Corrosion and Scale Inhibition

**Room:** Saal 2

11:40 am

#### Implementation of vapor corrosion inhibitors to improve corrosion protection effectiveness of dry air system

Prof. Bezađ Bavarian | California State University | United States

#### Authors:

**Prof. Bezađ Bavarian** | California State University | United States

**Boris Miksic** | Cortec Corporation | United States

**Yashar Ikder** | California State University | United States

**Babak Samimi** | California State University | United States

**Lisa Reiner** | California State University | United States

Wednesday 09.09.2015

### Corrosion in Oil and Gas

**Room:** Saal 1

17:10 pm

#### Protection effectiveness of vapor corrosion inhibitor for corrosion under insulation

Prof. Bezađ Bavarian | California State University | United States

#### Authors:

**Prof. Bezađ Bavarian** | California State University | United States

**Babak Samimi** | California State University | United States

**Yashar Ikder** | California State University | United States

**Lisa Reiner** | California State University | United States

**Boris Miksic** | Cortec Corporation | United States

We will be pleased to see your presence in the exhibition hope to see you at our booth.

Earth, Water, Fire, Air, Corrosion happens everywhere, visit Eurocorr 2015 and find out best anti-corrosion solutions for you!

## About Graz:

The city of Graz has been included in the UNESCO list of World Heritage Sites. Graz enjoys a rich history, yet is at the same time bursting with modern life. It would not be an exaggeration to describe Graz as a city of opposites: its magnificent buildings bear witness to over 850 years of architecture in the city, such as the Landhaus, also home to the Styrian Armoury and its 30,000 weapons and suits of armour, the cathedral and the mausoleum, Schloss Eggenberg and the Grazer Burg with its double-spiral staircase. These ancient edifices merge in unique harmony with state-of-the-art works by internationally renowned architects.
