

NEWS ALERT

Handy Intro Sheet Now Available for Cortec® Removable Coatings!

The handy intro sheet features the Cortec Corporation logo, ISO 9001, ISO 14001, and ISO/IEC 17025 certifications, and a QR code. The main image shows a hand using a spray gun to apply a coating to a metal pipe. The text on the sheet includes:

CORTEC® REMOVABLE COATINGS

EASY TO APPLY

- Products can be applied via spray, brush, roll, or dip
- Single component systems, no mixing needed

EASY TO REMOVE

- Products can be easily removed using alkaline cleaners

LOW VOC

- Products are used in the toughest climates around the world including industrial and offshore environments

Protect during manufacturing, shipment, and storage.

Cortec's removable coatings deliver exceptional corrosion protection for indoor and outdoor applications. These removable coatings are an advanced, safe replacement for hazardous oil-based products such as Cosmoline or Tectyl®. Consult your Cortec® representative to help choose the best option.

PRODUCT OPTIONS

- VpCI®-368—solvent based coating
- VpCI®-369—oil based coating
- VpCI®-372—water based peelable coating
- VpCI®-389—water based coating
- VpCI®-391—water based coating

KEY BENEFITS:
Easy to Apply and Remove • Rust Preventative • Transit Coatings • Long-term Storage • Export Shipments • Durable • Harsh Conditions • Outdoor Storage • Tintable • Mil Spec Approved

*Tectyl is a registered trademark of DAUBERT CHEMICAL COMPANY, INC. and POTOMAC CHEMICAL COMPANY, INC. All rights reserved. Cosmoline is a registered trademark of HOUGHTON TECHNICAL, INC. All rights reserved.

Cortec® has released an easy-to-use handout introducing new users to Cortec® removable coatings!

The handy intro sheet highlights key aspects of Cortec® removable coatings:

- They protect during manufacturing, shipment, and storage.
- They are easy to apply, easy to remove, and low VOC.

Cortec® removable coatings protect against corrosion on both indoor and outdoor applications. They provide an excellent alternative to Cosmoline® or Tectyl®,* and come in various solvent-, oil-, and water-based formats for use during transit and storage!
