

# MUNICIPAL WASTE TREATMENT

## CASE HISTORY

# Restaurant Sewerage Blockage and Grease Trap Odor Control

Image courtesy of IB Tatyana Kashirskaya

### DATE

December 2017

### LOCATION

Ryazan, Russia

### CUSTOMER

Golden Spur Restaurant

### PRODUCT

BCP22™

ECO-TRAP™ L

### PROBLEM

Several years ago, the customer had trouble with operating the sewerage and grease trap in its restaurant. Frequent blockages and clogging of the sewerage, plus an unpleasant odor coming from the grease trap, became a headache.

### APPLICATION

The solution was to add biological products ECO-TRAP™ L and BCP22™ directly into the sewer pipe (via the drain holes in the sinks) and grease trap.

### CONCLUSION

The customer concluded that both products were effective and wrote an official letter of recommendation encouraging their use in food production facilities.
